

SAFETY AND HEALTH POLICY

Filtrex Technologies Pvt, Ltd is concerned and committed in its employee's safety and health. Management will provide adequate training, delegate authority and budgetary resources to responsible parties so that the objective and the goals for safety and health are achieved. Goals will be set for safe operation, and they will be monitored twice in a year for compliance. All safety interactions will be investigated by the department supervisor, reviewed, and documented with recommendations for corrective actions. Management will review all safety and health incidents on monthly basis. Third party or internal safety audit shall be conducted once in a year.

Instructions for safety operations will be displayed prominently and will be adhering without exception. Mechanism will be set up to address repeated unsafe occurrences at workplace.

A system to record every accident, injuries and fatalities will be maintained, every accident will be reviewed and corrective actions will be implemented.
